Greetings DCC Women's Conference Participants,

I count it a tremendous blessing and honor to share in such an anticipated renewal experience. I'm excited about this opportunity to share nuggets of my experiences and learnings as a single and saved individual of over 25 years. My plight has been unique and continually spiraling forward.

A special invitation is extended to all single ladies who *wait to exhale*. A uniquely designed "**keeping it real**" wrap session is designed especially for you. The total you will be explored from your head to your toes, your mind to your wallet. What's going on in your head? What are you doing girl?

We aim to leave saturated in the faith required to live out our individual destinies and overcome every hurdle, obstacle, and/or hindrance. Our 11:30 Saturday session will include a *special guest male panelist* that will go behind the scenes and *tell us like it is*. Ever wondered what Boaz sees while he is watching? Don't miss this dynamic session.

Dreaming Big,

Sister Ingrid
